PREFACE.

Mr. Sterling P. Groves, one of our younger collectors, on deciding to remove to California, has concluded to relinquish the collecting of coins and has placed his cabinet in my hands to be disposed of at auction.

It contains coins and medals that will afford attractive specimens to the collectors in every series; commencing with a few historical ancient coins, and the first dollar of 1486, it comprises a brief series of European thalers, including several of the highest rarity; and a few fine U. S. gold coins and a superb series of the $50 pieces of California, including two of the rarest varieties, and an uncirculated specimen of the variety that is most difficult to procure in such a state of preservation; and a small series of early Colonial and State coins, including the rare N E Shilling and, with his permission, inserted as my property, the excessively rare New York Cent, NEO EBORACUS, and the equally rare New Jersey IMMUNIS COLUMBIA, both in the finest state of preservation; and an extensive series of Napoleon medals which include several rare originals in silver, and unusual portraits in artist proofs and struck shells.

I guarantee all coins to be genuine and original.

I have prepared a plate catalogue with three plates.

Pl. I. Rare Thalers.

II. Colonial and State Coins.

III. California Gold.

The above plate catalogue will be sent for $1.00 and upon its return to me after the sale, I will price it and reforward to the purchaser without further charge.

Priced catalogue without plates 50c.

I will faithfully execute all orders entrusted to me for usual commission of 10 per cent.

Respectfully,

S. H. CHAPMAN,

Numismatist.

Stickney specimen, "Fine", which fetched $300. See plate.

364 1851 $50. UNITED STATES OF AMERICA. Eagle standing l. on rock holds shield and three arrows in r. and olive branch in l. talon, and in beak ribbon inscribed LIBERTY; above, on plain scroll without ends, all in the die, 880 THOUS; exg. FIFTY DOLLS.; all within beaded circle, outside of which around the margin AUGUSTUS HUMBERT ASSAYER OF GOLD CALIFORNIA, below, 1851. Rev. engine turned pattern in coarse interlacing lines, narrow plain band and outer band of interlaced lines. Edge milled. Octagonal. Uncirculated. Mint lustre; a few slight edge nicks and a dinge on one angle shows on reverse but does not show on obverse, apparently received on falling from the dies. Probably the finest known specimen of this variety, which is usually below the grade of very fine, and therefore lacking in the collections of fastidious amateurs. I do not recall ever having seen another specimen of this variety in such a high degree of preservation. From the Woodin Collection Sale at $370. See plate.

365 1851 Same. Good. 7 angles slightly dinged.

366 1851. $50. Same, but with 887 on scroll. Rev. outside the engine turning, which is of smaller diameter, a plain band of double the width of that on the preceding. This is one of the rarest varieties, especially in very fine condition, and I find no recent quotation of it in very fine condition except the perfect, uncirculated specimen in the Zabriskie Collection, which fetched $1000. These coins are usually weak along one side and on this specimen it is the date side which shows the upper half of the figures, the lower portion not struck up. Extremely fine, brilliant mint lustre. This specimen has never before been offered at auction.

SAN FRANCISCO CALIFORNIA, WASS MOLITOR & CO. within olive wreath 50 DOLLARS; above on scroll, 900 THOUS. Edge milled. Round. Very fine. Slight nick on neck and field below chin and above head, but free from deep dents usually seen on specimens caused by other coins falling upon them during coinage. An unusually splendid specimen of this very rare coin. See plate.
